THE PATCH ACT PROTECTS YOUR CONFIDENTIAL HEALTH CARE INFORMATION

How Does The PATCH Act Affect You?
The Protect Access to Confidential Healthcare (PATCH) Act allows you to choose how and where your health insurance company sends your summary of payment (SOP), an explanation of services sent from your insurance company after your healthcare visit.

The Law Helps You If You Are...
1. A minor (under 18 years of age) on the same health insurance plan as the policyholder, who is your parent/legal guardian, spouse or partner, and you need certain confidential health services as outlined in state law. A few examples include:
   - emergency services to prevent risk to your health or life
   - services relating to HIV and sexually transmitted infection (STI) testing, prevention, and treatment
   - family planning services
2. A young adult (18-26 years old) on the same health insurance plan as the policyholder
3. Anyone else covered under another person’s health insurance plan such as a spouse or partner who is the policyholder

How Does It Work?
1. If you have an out-of-pocket cost such as a copay or deductible, you have 2 options for telling your health insurance company how and where you want your SOP sent.
   - receive the SOP at any physical address that you choose, or
   - receive the SOP directly online -- all health insurance plans are required to offer SOP forms online by April 2019, but some may be doing this already
2. If you don't have an out-of-pocket cost, you can request that your SOP not be sent at all.

Sensitive Services That Can No Longer Be Specifically Described on Your SOP
Some examples include but are not limited to:
- HIV testing, treatment, and prevention
- Gender identity-related care if you identify as transgender
- Hepatitis B & C testing and treatment
- STI testing, treatment, and prevention
- Sexual and reproductive healthcare or health services
- Domestic violence, relationship abuse, or sexual assault services
- Mental health and substance use disorder services

*Note–The name of your health provider will still appear on your SOP.
