

Dear Representative,

As we know, the GOP health bill would have put insert statistic at risk. I'd like to thank for declaring your opposition to the American Health Care Act of 2017. The bill would have stripped health care from insert statistic and placed immense strain on our state budget by gutting Medicaid to fund tax cuts to the wealthiest Americans and huge corporations. You were on the right side of history, and we thank you for protecting consumers in your district and across the country from this dangerous bill.

Access to high quality, affordable health care is incredibly important for the well-being of all Massachusettsians.

Of course, our current health care system is not perfect, and there is much more to do to build on the progress we have made. However, the people have spoken – not only do they not want the ACA repealed and Medicaid gutted, but they also want improvements to lower health care costs and enhance the quality of care. We hope that lawmakers on both sides of the aisle will work together to protect Medicaid and build on the progress we have made in expanding coverage, reducing medical debt, improving health equity and tackling the opioid epidemic. We welcome the opportunity to work with you and your staff to do just this.

Again, we thank you for your support of quality, meaningful health care.

Sincerely,

Insert name
